HOPES FRANCE WILL REMAIN NEUTRAL

Japanese Newspaper Expresses Itself Accordingly.

RUSSIANS ORDERED TO MOVE ON

Japanese Have Placed Orders for More Battleships—Officers and Crews for Fifth Pacific Squadron Have Been Secured.

Tokio, May 11.—The Jiji hopes that France will cease her flagrant and deliberate breaches of her pledges of neutrality, in reference to the treatment accorded the second Russian Pacific squadron in French waters, and satisfaction is expressed at British representations to the government in Paris, showing that England is alive to the danger menacing Japanese interests.

The Nippon says what French interest in Russia is more of a financial and economical character, than political, and that the alliance between the countries has ceased to be of any practical benefit in Europe. It expresses the belief that France is upholding because her honor is pledged diplomatically.

Russians Ordered to Move On.

Saigon, Cochin China, May 11.—The Russian cruiser Jemtschug and the Russian auxiliary cruiser Rion belonging to Admiral Rajestvensky's squadron arrived off Cape St. James,, near here, during the night of May 8, and left yesterday morning at the request of the governor of French Indo China.

These cruisers which brought instructions for Rear Admiral Nebogatoff, anchored 3 or 4 miles off shore. A heavy sea was running, exposing a good deal of the warships hulls which were quite free from barnacles or seaweed. The ships appeared to have unusually large crews and the men all seemed in good health.

The main Russian squadron is said to be well provisioned, but are short of tobacco and cigars.

It is considered likely here that Nebogatoff's division has already passed the cape.

The hospital ship Kostroma whose arrival here was announced May 8, sails May 12.

Japan Orders New Battleships.

Tokio, May 11.—The reports that Japan plans to order the construction of two battleships and six large cruisers abroad are renewed.

The representatives of English naval construction companies are here endeavoring to secure the orders, but it is doubtful if the government has reached any decision in the matter.

Men for Fifth Division.

Frankfort, May 11.—The Frankfort Zeitung today says it has received advices from Hamburg to the effect that agents of the Russian government have completed arrangements through the society of German captains and officers of the commercial marine for the enlistment of officers and crews for transport ships which are to accompany the fifth division of the Russian second Pacific squadron to Jarest. They will proceed to Liba in the Baltic sea.

Jews and Christians Fight.

St. Petersburg, May 11.—No further details have reached here from Zhitomir, the scene of the recent attacks of Orthodox Christians on Jews. It is asserted that a fortnight before the disorders proclamations were spread calling on the Christians to beat the Jews. When these proclamations were spread calling on the Christians to beat the Jews. When these proclamations were shown to the mayor of Zhitomir, the latter declared them to be stupid and said there was no occasion for alarm.

At the ministry of the interior it is said that M. Boulgan sent urgent instructions the night of May 8 to Zhitomir ordering the authorities there to protect the Jews and to prevent disorders.

The creditor of M. Kronsheven, the former editor of the Bessarabyetz has levied on his paper, The Friend, recently established at Kishineff.

Count Cassini Goes to Madrid.

Washington, May 11.—Count Cassini, the Russian ambassador to this country, has been transferred to Madrid. He will be succeeded here by Baron Rosen, until recently Russian minister at Tokio. Count Cassini was offered the ambassadorship to Madrid two months ago and accepted it. He will leave in June for his new post.

WILL NOT BE A CANDIDATE.

President Roosevelt Makes a Positive Declaration at Omaha.

Omaha, Neb., May 11.—The Bee quotes President Roosevelt as making the emphatic statement that he will not be a candidate for President. It says:

"You are authorized to state that I will not again be a candidate for president of the United States. There are no strings on this statement. I mean it.

"I made my speech at Denver for the purpose of convincing the people of my earnestness in regard to the matter of railroad legislation. I will not be satisfied with any compromise that does not bring relief to the people from the conditions now existing in regard to transportation affairs in the country. No compromise bill from congress will be accepted."

EXPEL UNDESIRABLE ELEMENTS.

South American Republic Applying Law to Socialists.

New York, May 11.—The government is applying with the uttermost vigor the so-called law of residence which enables it to expel from the country all undesirable elements, cables the Herald's correspondent at Buenos Ayres, Argentina. The measure is directed principally against socialist agitators. Seven Spaniards already have been expelled within a few days.

A delegation of Socialists headed by Deputy Pallacces visited the chief of police and requested permission for a contemplated demonstration. The police chief imposed the condition that no red flag be used.

The Socialists thereon protested against this decision and the demonstration was postponed.

Sale of Fertilizer Tags Reduced.

Atlanta, May 11.—That the sale of fertilizers has decreased a wonderful extent of late is proven conclusively by figures given out Monday morning by Commissioner of Agriculture O Stevens. In April, 1904, 169,350 fertilizer tags were sold by the department of agriculture. In April, 1905, 129,810 fertilizer tags were bought by the fertilizer mills, a decrease in the sales of just 40,000 tags for the corresponding months. One fertilizer tag must, under the law of Georgia, be placed on every 200 pounds of commercial fertilizer sold in Georgia.

A Strange Death Pact.

Berlin, May 11.—Civil Engineer Fuhlereth killed his young bride and himself in consequence of a death pact, made with a third party, and styled "American duel" here. Two men had agreed that one must comit suicide under certain conditions. The civil engineer drew the black ball and felt "in honor bound" to kill himself. His young and pretty wife, a bride of six weeks, begged him to include her in this sorry duel. The pair left heartrending letters.

Blow to Ticket Scalpers.

Washington, May 11.—An order has been signed by Justice Anderson, in the supreme court of the District of Columbia, making permanent a temporary injunction which prohibits local ticket brokers from trafficking in excursion tickets to and from Washington which bear the signature of the traveler. The suit was a joint one brought by the railroads a few days before the recent inauguration.

Aged Man Commits Suicide.

Mobile, May 11.—Captain J. A. Deering of this city, aged 75, a retired and wealthy steamboat captain, was found dead in his bed at Klosky's hotel today. A bottle that had contained strychnine was found beside the bed. The coroner said it was a case of suicide.

STRIKERS PROTEST AGAINST SOLDIERS

They Address An Appeal To President Roosevelt.

EMPLOYERS BROKE AGREEMENT

All Contracts, They Claim, Had the Arbitration Clause Which Was Disregarded by Employers—Negros Denounce Union.

Chicago, May 11.—"To the Honorable Theodore Roosevelt, President of the United States of America—Honorable Sir: This labor difficulty began as a lockout. So far as there has been any striking done, it has been a strike for arbitration. The unions are committed both upon principle and upon specific contract with the employers for arbitration.

"These contracts grew out of the desire of the unions to protect the public peace and welfare by providing to submit all disputes or differences of opinion to the umpirage of an impartial third party, and accepting the decision—right or wrong—as binding upon both parties. Such a course is a guarantee of the preservation of law and order. All that the unions ask for or desire in this controversy is that an arbitration shall be granted as specifically agreed to in the contracts involved. All that is desired that the public officials shall join with the labor bodies in demanding that lawlessness shall not be allowed to be used in forcing contracts to be broken and that violence shall not be allowed to prevent differences of opinion to be settled by the quiet, orderly methods of arbitration."

Peace and Order Today.

Promises of peace and order for today, the president's day, were made by both sides in the teamsters' strike. The Employers' Teaming company decided to reduce its teaming and delivery operations for today. The teamsters' joint counsel has voted against a general strike and determined that no further sympathetic movements should be made, except in case of teamsters ordered to make deliveries to boycotted houses in which event individuals should walk out. A statement of the situation was prepared to be presented to President Roosevelt by a strikers' committee, which desisted at his request, from meeting him on the way to Chicago. The labor Representatives planned to inform the president of legal proceedings which have been taken by the employers and make a proposition that the President act as an arbitrator of the differences, choosing as associates one man from the labor ranks and one from the employers. The employers say they will not officially approach the president.

"We have no intention of bothering President Roosevelt with out troubles," said Attorney Levy Mayer, counsel for the Employers' association today. "It is likely however, he added "that the employers' side will get the president's ear for a quiet discussion of the situation some time during his stay here."

Strike leaders declared that no orders had been issued to the strikers to refrain from violence today, beyond instructions previously given out during the strike, but it was current gossip that secret commands had been passed along the line, ordering all teamsters to remain absolutely quiet and not to attempt the slightest interference today with the teams of the employers' teaming company.

President Arrives in Chicago.

Chicago, May 11.—President Roosevelt's train at the Chicago and Northwestern railroad depot, Kinzie and Wells streets, a few minutes after noon was met by Graeme Stewart and other members of the reception committee. President Roosevelt and party immediately started for the auditorium annex.

Negroes Hold Indignation Meeting.

Chicago, May 11.—More than one thousand negroes have assembled at the Bethel African Methodist church and adopted resolutions protesting again the action of the department store drivers, which, the resolution asserts, circulated "A slanderous letter against negro drivers, declaring them to be 'loafers' not wiling to work."

This charge was denounced as a willful and malicious falsehood urged against men who proved their value by risking their lives to obtain work. The resolution also called on the mayor to "save hard working citizens from that kind of protection which lets the rioter go free, sends the victims to the jails and hospitals."

EXAMINE EQUITABLE OFFICERS.

State Superintendent of Insurance Has Undertaken This Work.

New York, May 11.—Prepaartions for the oral examination of officers and directors of the Equitable Life Assurance Society of the United States which will be carried on under his personal direction, have been completed by State Superintendent of Insurance Francis Hendricks, who is now in this city. Congressman M. E. Driscoll, of Syracuse, has been engaged by Superintendent Hendricks to question the men and it is expected the examination will continue at least one week.

Superintendent Hendricks will examine only the officers and directors who have been directly caused in the recent bandying of charges over the society's affairs, but every director who holds office by reason of the transfer of stocks by James Hazen Hyde or his father H. B. Hyde.

There will be nothing compulsory about the proceeding which, however, will be carried on largely in executive session.

Injunction is Denied.

New York, May 11.—Justice McLean, in the New York supreme court today denied the application of Herbert G. Tull, of Philadelphia, a policy holder in the Equitable Life Assurance Society of the United States of America for an injunction restraining that society and the New York state superintendent of insurance from proceeding further with respect to the proposed amended charter of the Equitable which was sent to the superintendent of insurance for his approval. The amended charter provides for the mutualization of the society.

To Attract Desirable Emigrants.

Albany, N. Y., May 11.—With the view to attracting to this state desirable immigrats, the state department of agriculture is preparing to collect and disseminate the farm and dairy advantages which New York state offers. One of the severest handicaps with which the farmers of this state have to contend is the scarcity of farm laborers. For many years the state agricultural department has observed that foreign farm hands and small farmers seldom settle in the east but travel straight through to the west. In past years the great inducement there was given farm homesteads but now that such lands are almost entirely settled an effort will be made to bring these desirable emigrants to New York state.

On Tour of Inspection.

Chicago, May 11.—Secretary Wilson and representatives of the department of agriculture who will tour the south west to inspect the condition of agricultural developments will be joined in Memphis, Friday, by officials of the Rock Island system and others who left Chicago today in a special train on the Chicago & Eastern Illinois railroad. Secretary Wilson, president Jas M. Spillman in charge of grass and forage plant investigation of the department and others will leave Chicago over the Southern railroad tonight arriving in Memphis Friday morning.

Look Out for These Swindlers.

Chicago, May 11.—Two or more men using the names of Anderson, Craft and Todd have been engaged fraudulently for two months in soliciting subscriptions for magazines and other periodicals in the name of the American Press Association as subscription agent. They have operated here, in Omaha, South Omaha, Council Bluffs, Sioux City and other places. At an earlier date they had worked the eastern states. The American Press Association is not a subscription agency; any one soliciting subscriptions in its name is necessarily a swindler.

MANUFACTURERS OF COTTON IN SESSION

Ninth Annual Convention Being Held at Knoxville.

IS WELCOMED BY THE GOVERNOR

President of Association Discusses the Growth and Development of the Cotton Industry—Visitors Being Royally Entertained.

Knoxville, Tenn., May 11.—Assembled in this city, for a two days' session the ninth anual convention of the American Cotton Manufacturers' association, opened this morning. President R. S. Reinhardt, of Lincodnton, N. C., is presiding. Addresses of welcome were delivered by Governor John I. Cox, and Mayor W. H. Gass, for state and city respectively, W. B. Lockett for the business interests and Dr. Brown Ayers for the colleges of the state.

Mayor Gass presented the convention a magnificent souvenir, being a set of keys carved from Tennessee marble and inclosed in a case made of native materials, cotton, wool, iron and timber. In his opening address President Reinhardt entered into a discussion of the developments of the cotton industry during the past year and concluded by predicting a great export trade, which has already begun to augment.

To the wide fluctuation in the price of cotton in America in less than a year, from 16½ to 6½ cents, he attributed the unsatisfactory demand for cotton goods. He congratulated the cotton mill men upon the absence of labor troubles. In conclusion he advocated the enactment of a well considered "Merchant marine bill," and an augumented navy to protect foreign trade, which he believed is certain to follow the opening of the Panama canal.

Dr. Brown Ayers spoke particularly of the value of education in the development of cotton and other industrials in the south, and made an appeal for moneyed interests to aid industrials in the south and made an appeal for moneyed interests to aid industrial colleges of the south.

This afternoon the delegates, about four hundred in number, were entertained at the various clubs of the city following a brief afternoon session.

William Meacham, who was shot, is a brother of the man who did the shooting and the manager of the plant. Albert Meacham was arrested and is confined in the hospital ward of the jail. The coroner's jury placed the blame for the killing on Cummins and Albert Meacham.

Boycott American Goods.

Shanghai, May 11.—A large and influential meeting of Chinese merchants held here today protested vigorously against the proposed new Chinese exclusion treaty recently discussed in the United States. Telegrams on the subject were sent to Chinese officials, Yuan Shi Kai, viceroy of Chile province and to Chou Fu, viceroy of Nanking, and it was unanimously decided to boycott American goods until the terms proposed in the treaty are modified. Merchants in the empire are urged to co-operate in the movement.

FOUND DEAD IN ROAD.

Aged Colored Woman of LaCrosse Met a Sudden Death.

"Aunt" Phenus Minge, an aged colored woman of ante-bellum days, who has resided in the vicinity of LaCrosse for the past half a century, is dead. Her lifeless form was discovered in the public road near LaCrosse by Julius Robinson, a colored man, early Wednesday morning while Robinson was en route to his work.

The death of "Aunt" Phenus, as she was widely and familiarly known, removes another of the old timers from this world to probably something better beyond. This type of negro is becoming rapidly extinct and within the next few years will be virtually a thing of the past.

Justice Knight was notified of the death, but owing to extreme age and with a knowledge that the deceased had been in ill health for some time, he deemed an inquest unnecessary and she was removed and buried by friends.

Mothers Are Helped

THEIR HEALTH RESTORED

Happiness of Thousands of Homes Due to Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's Advice.

A devoted mother seems to listen to every call of duty excepting the supreme one that tells her to guard her health, and before she realizes it some derangement of the female organs has manifested itself, and nervousness and irritability take the place of happiness and amiability.

Tired, nervous and irritable, the mother is unfit to care for her children, and her condition ruins the child's disposition and reacts upon herself.

The mother should not be blamed, as she no doubt is suffering with backache, headache, bearing-down pains or displacement, making life a burden.

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for this condition. It strengthens the female organs and permanently cures all displacements and irregularities.

Such testimony as the following should convince women of its value:

Dear Mrs. Pinkham:

"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound has done me. I suffered for eight years with ovarian troubles. I was nervous, tired and irritable, and it did not seem as though I could stand it any longer, as I had five children to care for. Lydia E. Pinkham's Vegetable Compound was recommended and it has entirely cured me. I cannot thank you enough for your letter of advice and for what Lydia E. Pinkham's Vegetable Compound has done for me.—Mrs. Ph. Hoffman, 100 Himrod Street, Brooklyn, N. Y."

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

Nichols, at her elegant home, 301 East Orange street, entertained a number of friends at cards Wednesday afternoon, and it is needless to add that the affair was one thoroughly enjoyed by those present. His Political Glory.

During one of the informal receptions which followed one of the Democratic mass meetings in New York in the campaign of 1904 a gentleman was introduced to ex-President Cleveland as "Mr. Frank Brooks."

"I am Frank H. Brooks, Mr. Cleveland," said he, "and I am very glad to have the honor of meeting you, as I owe you the only political glory I ever had."

"Indeed," said the ex president. "And how was that, pray?"

"You appointed me consul at Triest."

"Indeed. And was that an agreeable place to go?"

"I can't tell you," laughed the other. "I didn't go. The salary was not such as I could accept, so you changed the appointment to consul general at St. Petersburg."

"That was better," replied Mr. Cleveland. "How did you like that capital?"

Mr. Brooks laughed again. "I didn't go there either," said he. "I was compelled by family reasons to refuse that gift too."

"Shake hands again," exclaimed the statesman heartily. "I have met many notable men in my time, but never before a Democrat who had refused two offices."—Criterion.

An Ambassador's Wit.

The late Lord Pauncefote, while attending the peace congress at The Hague, attracted the attention of the delegates by taking notes with a fountain pen the handle of which was formed by the shell of a dumdum bullet. One day, says a biographer, the representative of a foreign power, excited by the heat of the discussion in the interests of peace, said to him sharply:

"My lord, it isn't right for you to use that murderous shell in this congress. The instruments used by persons are almost emblematic. They can become a part of themselves, an expression of their ideas and of their personality."

Lord Pauncefote smiled, but said nothing. The following day his critic, wanting to write something, turned to the English diplomat to borrow a pen. The ambassador pulled out of his pocket an old fashioned pen made of a gray goose quill and after the borrower had finished said

"Monsieur, it isn't right for you to use such an instrument in this congress. The instruments used by persons are almost emblematic. They can become part of themselves, an expression of their ideas, of their personality."

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Cleared for Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At all drug stores, 25c.

Unique Breach of Promise Suit.

Pittsburg, May 11.—There is booked for trial in the federal court here a breach of promise case in which Miss Edith Isabella Gibney, of St. Louis, sues Claus J. Steiner, a wealthy young consulting architect, for $50,000 damages, and his father, mother and three sisters for $50,000 damages, alleging they conspired to tell untruths about her to her fiance and so broke off the match.

To Start Big Furnace.

Enrighed Man He Would Rob.

Foulsville, Ky., May 11.—James T. Moran, a tailor, had a battle at his home with a burglar, and while the intruder did not succeed in robbing Mr. Moran, the thief lost a pair of costly diamond cuff buttons. MAN GROWS BLACK ROSE.

Afflicted Man Discovers a Process of Producing a New Rose.

Savannah, Ga., May 11.—Dennis Tapley is an afflicted young man of this city who has for years, though bowed and bent by disease, sold key rings in one of the squares, stamping upon the rings the names of those who buy.

He has suddenly sprung into public notice through his assertion that he has discovered a secret that has been concealed from naturalists and florists for all the ages—the secret of growing a coal black rose. Tapley declares he has perfected his method, and that he can raise a rose as black as the raven's wing. This, he asserts, he does without the use of chemicals. He has named his rose the Mourning rose and says he expects to sell the secret for $10,000.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and lagrippe. At drug stores, price 50c and $1.00; guaranteed. Trial bottle free.

Texans Attend Baptist Convention.

A special religious program is being carried out on board the chapel car "Goodwill," which is one of the six coaches and sleepers which make up the train. There will be a large attendance from Texas and many prominent persons are among the number.

Warning.

You cannot have good health unless your kidneys are sound, for the kidneys filter the blood of impurities which otherwise act as irritating poisons and break down the delicate organs of the body and cause serious trouble. If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. Sold by J. W. McCollum & Co.

Negro Killed Resisting Arrest.

Nashville, Tenn., May 11.—While resisting arrest Tom Ray, a negro, was shot and killed by Patrolman J. K. Bradford. When the officer undertook to arrest Ray, the latter clinched him and a scuffle lasting several minutes ensued, when both the officer and the negro went down to the sidewalk together. The officer had drawn his revolver, and as they went down the weapon was discharged, the bullet entering Ray's neck and severing the jugular vein. He died almost instantly.

A Positive Necessity.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.—D. R. Byrnes, merchant, Doversville, Texas. 25c, 50c and $1. Sold by W. M. Johnson, Gainesville, Fla., and J. C. Bishop, Alachua, Fla.

FOUND DEAD IN ROAD.

Aged Colored Woman of LaCrosse Met a Sudden Death.

"Aunt" Phenus Minge, an aged colored woman of ante-bellum days, who has resided in the vicinity of LaCrosse for the past half a century, is dead. Her lifeless form was discovered in the public road near LaCrosse by Julius Robinson, a colored man, early Wednesday morning while Robinson was en route to his work.

The death of "Aunt" Phenus, as she was widely and familiarly known, removes another of the old timers from this world to probably something better beyond. This type of negro is becoming rapidly extinct and within the next few years will be virtually a thing of the past.

Justice Knight was notified of the death, but owing to extreme age and with a knowledge that the deceased had been in ill health for some time, he deemed an inquest unnecessary and she was removed and buried by friends.

A DELIGHTFUL SURPRISE.

Epworth League Tenders to Miss Andrews a Linen Shower.

The Junior Epworth League of the Methodist church tendered a surprise linen shower to Miss Virginia B., the charming daughter of Col. and Mrs. J. O. Andrews, Thursday evening, at the home of her parents.

The bride-to-be is a prominent young lady and a member of the League, and her numerous friends desired to honor her.

There were many handsome presents, and altogether the affair was a most delightful one.

Mr. and Mrs. Goodnow will immediately make their departure for Westmoreland, where they will reside.

Mothers Are Helped

THEIR HEALTH RESTORED

Happiness of Thousands of Homes Due to Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's Advice.

A devoted mother seems to listen to every call of duty excepting the supreme one that tells her to guard her health, and before she realizes it some derangement of the female organs has manifested itself, and nervousness and irritability take the place of happiness and amiability.

Tired, nervous and irritable, the mother is unfit to care for her children, and her condition ruins the child's disposition and reacts upon herself.

The mother should not be blamed, as she no doubt is suffering with backache, headache, bearing-down pains or displacement, making life a burden.

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for this condition. It strengthens the female organs and permanently cures all displacements and irregularities.

Such testimony as the following should convince women of its value:

Dear Mrs. Pinkham:

"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound has done me. I suffered for eight years with ovarian troubles. I was nervous, tired and irritable, and it did not seem as though I could stand it any longer, as I had five children to care for. Lydia E. Pinkham's Vegetable Compound was recommended and it has entirely cured me. I cannot thank you enough for your letter of advice and for what Lydia E. Pinkham's Vegetable Compound has done for me.—Mrs. Ph. Hoffman, 100 Himrod Street, Brooklyn, N. Y."

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

Death at Windsor.

Friends of Mr. and Mrs. T. M. King, Windsor, will sympathize with them in the death of their sweet little daughter, Efna, which sad event occurred Thursday morning after a brief illness.

The funeral was held Thursday afternoon, the interment being at Providence Cemetery, near Windsor. The casket was supplied by the Thomas Undertaking Company.

Mrs. Nichols' Card Party.

Mrs. C. A. Nichols, at her elegant home, 301 East Orange street, entertained a number of friends at cards Wednesday afternoon, and it is needless to add that the affair was one thoroughly enjoyed by those present. Delicious refreshments were served during the afternoon, and altogether, the occasion was a social success.

His Political Glory.

During one of the informal receptions which followed one of the Democratic mass meetings in New York in the campaign of 1904 a gentleman was introduced to ex-President Cleveland as "Mr. Frank Brooks."

"I am Frank H. Brooks, Mr. Cleveland," said he, "and I am very glad to have the honor of meeting you, as I owe you the only political glory I ever had."

"Indeed," said the ex president. "And how was that, pray?"

"You appointed me consul at Triest."

"Indeed. And was that an agreeable place to go?"

"I can't tell you," laughed the other. "I didn't go. The salary was not such as I could accept, so you changed the appointment to consul general at St. Petersburg."

"That was better," replied Mr. Cleveland. "How did you like that capital?"

Mr. Brooks laughed again. "I didn't go there either," said he. "I was compelled by family reasons to refuse that gift too."

"Shake hands again," exclaimed the statesman heartily. "I have met many notable men in my time, but never before a Democrat who had refused two offices."—Criterion.

An Ambassador's Wit.

The late Lord Pauncefote, while attending the peace congress at The Hague, attracted the attention of the delegates by taking notes with a fountain pen the handle of which was formed by the shell of a dumdum bullet. One day, says a biographer, the representative of a foreign power, excited by the heat of the discussion in the interests of peace, said to him sharply:

"My lord, it isn't right for you to use that murderous shell in this congress. The instruments used by persons are almost emblematic. They can become a part of themselves, an expression of their ideas and of their personality."

Lord Pauncefote smiled, but said nothing. The following day his critic, wanting to write something, turned to the English diplomat to borrow a pen. The ambassador pulled out of his pocket an old fashioned pen made of a gray goose quill and after the borrower had finished said:

"Monsieur, it isn't right for you to use such an instrument in this congress. The instruments used by persons are almost emblematic. They can become part of themselves, an expression of their ideas, of their personality."

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

The Fitzhugh Lee Monument Association has been organized at Richmond.

Greene and Gaynor, wanted in Georgia for defrauding, are making a big fight to stay in Montreal, P. Q.

It remained for a deacon of the church to strike the blow that killed the prohibition measure at Tallahassee.

Jokes about "the sweet girl graduate" are now in order. Some very old ones may be had of the syndicate houses.

The war news in the Far East has been so meagre for the past two weeks that many people are wondering what is the matter.

Theodore Roosevelt says he will not be a candidate for President again. He will not, as President, see the beef trust trial finished.

The strike is reported to be more quiet in Chicago and the department stores and express companies are resuming business again.

If the new fish bill passes the Legislature the State will get $55,000 a year revenue from that source by the tax on fish boats and nets.

Conspirator August W. Machen will be taken out of prison and tried again, so he will have something coming when his present term is finished.

Probably the next thing Governor LaFollette of Wisconsin will do, when he desires to look after the game laws, is to protect the musk-rat for State dinners.

The Troy, N. Y., collar starchers who are on strike should not cause much trouble in having the starch taken out of them at this season of the year.

The products of many cotton mills in the South are sold up to January, and a number of mills are supplied with sufficient raw material to last until the new crop is ready.

One would be led to believe from reading the telegraph news regarding the strikes in Russia that it was a free country. They act just the same as they do in free America.

"Camilla," the serial running in The Ocala Banner, seems to be getting along in the same old way, as we notice in the last installment that "the mystery deepens." This is a very refreshing diversion from the time-honored expression, "the plot thickens."

The committee on education of the Legislature has reported favorably on Senator Trammell's bill requiring the teaching of the elementary principles of agriculture and the elements of civil government in all the common schools of the State of Florida, and to provide a penalty in case any county board of education fails to provide for the teaching of the same. This will necessitate teachers to pass an examination upon these subjects, making their duties more arduous, but there is no provision for a proportionate increase in their salary.

UNIFORM TEXT BOOKS.

In a lengthy and ably written editorial The Daily Florida Sun comes out squarely for uniform text books in the schools of Florida, believing it not only the cheapest but the best. After urging free text books, when the time comes so the State can do it, which The Florida Sun thinks will be aided by the use of uniform text books, the article concludes as follows:

"We do not think it is necessary for us to discuss the details of the system. The Legislature has full information on the subject supplied by the Governor, who has submitted reports from every county superintendent of public instruction in this State and many from other States.

"He has also turned over to the Legislature samples of books, with prices, reports from book concerns and other information collected by him during the last three months.

"We have not examined the exhibits of the Governor and we are not competent to express an intelligent opinion as to the merits of the McCreary bill or the Crane bill.

"We have studied the question as a whole and we declare in favor of the uniform school book system.

"Let the Legislature work out the details and pass the best bill possible to frame to put the system into effect."

NOT A MAN.

In speaking of the crimes committed in this State recently, directly chargeable to the misconduct or intimacy between married women and men other than their husbands, The Daily Miami Metropolis says that the men are not alone to blame, as there are many designing women, who, "by a smile can make a man her slave."

Possibly this may be true, but the specimen of man who is thus led by a woman is what is termed a "man of straw," a puppet, and the world is better off without him. No man of much sense will be led by anyone all the time, and although there are many men who will defend true womanly qualities at all times, the one that will sacrifice principal to satisfy a depraved nature is of little value and is lacking in the qualities that go to make up true manhood. He is a man slave.

Secretary Taft has been credited with nearly paralyzing the three hundred railway magnets at Washington, at a dinner party, when, after being introduced as the apostle from the Philippines, he emphatically declared that railway legislation must come; that if the railway men of the country were wise they would aid and not hinder it. Silence reigned as he spoke his mind on the subject of rates. He said he was positively against government ownership, believing that nothing so deleterious could come to the country as this solution of the question. "But," he continued, "you cannot run railroads as you run a private business. You must respond to the public. If there is danger of discrimination then you must allow the establishment of some tribunal that will remedy that discrimination."

Bullet Claims Two Victims.

Sharon, Pa., May 11.—Inflamed with jealous rage John Soroski shot and killed Mrs. John Seech and her 16-year-old nephew, Frank Rocci, and then fatally wounded himself. The police say that the bullet which caused the woman's death passed through her body and killed the boy.

When It Rained Icicles.

Gand Rapids, Mich., May 11.—In one of the fiercest hail and wind storm ever witnessed here hail in the shape of huge, hard icicles fell with terrific force, breaking windows in hundreds of residences and doing untold damage to fruit in the surrounding country. The storm lasted an hour.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

THE WOOLSACK.

It Is In the House of Lords and Yet Is Not a Part of It.

It is a curious fact that the woolsack on which the lord chancellor sits in the British house of lords is not, strictly speaking, in the house of lords, and this is why when the lord chancellor rises to take part in debate he first of all moves away from the woolsack to his own place as a peer before he speaks.

The fact, too, explains why noble lords who desire to avoid voting sometimes merely withdraw to the woolsack, where, not being in a parliamentary sense within the house, they are not counted in a division.

Again, though the lord chancellor is now invariably a peer, he is not necessarily so, and as a matter of fact the office has been held several times in the past by commoners. In such cases the lord chancellor could take no part in debate, not having a place in the house as a peer, and his functions as speaker were strictly limited to the putting of questions and other formal proceedings regulated by precedent from the woolsack.

A Servile House of Lords.

When King Henry VIII.'s name was spoken in his presence in the house of lords every peer prostrated himself with Asiatic servility. An entry in the records of the house gives the substance of a speech delivered by the chancellor on Jan. 16, 1541, in which the king's goodness and wisdom are extolled, and it tells us that whenever his majesty was mentioned, "which happened often," all the lords prostrated themselves, bowing to the ground as one man.

Force of the Future.

Cut off the future, and man is the most timid of creatures. The demons and dragons are too terrible for him to face and attack. But spread before him the illimitable future, and he will dare all things, certain of victory at last. Any night, however filled with weeping, can be endured by one who knows that joy is coming in the morning.

"Black Beauty" is Dead.

Messrs. Saunders & Earle, the gro-erymen, are sorrowing over the death "Black Beauty," their favorite orse, which decided to make its de-parture Thursday for horse heaven, via the kidney trouble route.

"Black Beauty" has been ailing for several days. His owners believed that he was only suffering from a touch of colic, but realized the truth when they came to business Thursday morning and found that he had passed to the happy hunting grounds. The animal was fifteen years of age, and was purchased by Mr. Saunders four years ago from Captain W. G. Shehee of High Springs. He has been a faithful horse, and was considered the most valuable worker of the equinal possessions of this enterprising firm. "'Black Beauty' has been with us for so long we almost feel that he is one of the firm," remarked Mr. Saunders, "and naturally we regret very much to lose him.

Noted Prohibitionist Dead.

Sandersville, Ga., May 11.—Colonel C. R. Pringle died of pneumonia at his residence in this city. Colonel Pringle was one of Sandersville's most valuable and highly honored citizens. He was a native of Monroe county and located here in 1857. From 1882 to 1885 he represented Washington county in the general assembly and in 1886 and 1887 he was state senator from this district. He had been president of the Georgia Prohibition association for a number of years and was a great factor in prohibition movements in this state.

Victim of Boy's Joke May Die.

Springfield, O., May 11.—Helen Travenor, 17 years old, has been unconscious for hours and her life is despaired of. She was the victim of a practical joke. Some boys decided to frighten her and one of their number was delegated to do it. He appeared at the Travenor home in a hideous disguise. When the girl opened the door she gave an unearthly scream and fell unconscious to the floor. She has been ill with nervous prostration for two months.

New Railroad for Georgia.

Atlanta, May 11.—A charter has been granted by Secretary of State Phil Cook to the Columbus Northern Railway company, a new line that is projection to be built from Columbus, Ga., through the counties of Muscogee, Harris, Meriwether and Troup, either to West Point or LaGrange, in the latter county, a distance of about 60 miles. The capital stock of the company is put at $100,000.

Will Defy the Tobacco Trust.

Wilmington, N. C., May 10.—The tobacco growers of North Carolina are deciding to establish factories in the state for the purpose of defying the alleged tobacco trust. Subscription books for a factory in Madison were opened with a proposed $90,000 capital and over 50 per cent of the amount was subscribed in an hour. Another factory will be built at Rocky Mount, in eastern North Carolina, and the movement has practically the backing of the entire tobacco growing belt of the state.

Floridians Going to Honduras.

Miami, Fla., May 10.—Four families from Dade county, in the neighborhood of Miami, have decided to try their fortune in Spanish Honduras, and will take the steamer Miami for Key West from which place they will sail for their new home. The soil of that country is said to be very productive and would bring fortunes to the inhabitants were it not for the poor transportation facilities. At the present time bananas form the only crop that is marketed.

EAR OF DIONYSIUS.

One of the Famous Whispering Places of the World.

Among the notable whispering places of the world is the "Ear of Dionysius" of ancient Syracuse. It is in the shape of a parabolic curve, ending in an elliptical arch, with sides parallel to its axis, perfectly smooth and covered with a slight stalactitic incrustation that renders its reperussions amazingly sonorous. It is 61 feet high, from 17 to 35 in breadth and 187 deep. It has an awful and gloomy appearance, which, with its singular shape, perhaps gave rise to the popular and amusing paradox that Dionysius had it constructed for the confinement of those whom he deemed inimical to his authority and that from the little apartment above he could hear all the conversation among the captives who were brought to the ancient town of Syracuse in the time of its splendor, when it was the largest in Sicily. The sound of words uttered with a low voice is augmented in vaults or galleries so as to become audible at a considerable distance from the speaker.

A like effect takes place in a less degree when sound ascends from the bottom of a deep well or when words are uttered at one extremity of a long corridor or passage in a building. If a pin be dropped into a well the sound produced when it strikes the water is distinctly heard at the mouth or the sounds of words spoken near the surface of any well is similarly augmented. Try it.—New Orleans Times-Democrat.

A FAMOUS STAR GROUP.

The Constellation Orion In Legend and Literature.

The constellation Orion is mentioned in the literature of all ages. In Egypt it represented Horus, the young or rising sun, in a boat surmounted by stars, closely followed by Sirius, which was shown as a cow. It has also been found sculptured on the walls of Thebes 5,000 years ago. And on the men of that early time it shone down from the same position and with the same brightness as it does on us today, a striking example of the unchangeableness of the heavens.

From the days of the early Hindoos to the present the constellation has for some reason borne always a stormy character. Allusions to its direful influence are found everywhere among the classic writers. Thus Milton wrote:

> When with fierce winds Orion arrived
> Hath vexed the Red sea coast

The loss of the Roman squadron in the first Punic war was ascribed to the fleets having sailed just after the rising of Orion. The group has also been employed as a calendar sign, its morning rising indicating the beginning of summer, its midnight rising the season of grape gathering and its early evening rising the arrival of winter, with its attendant storms. In recent times the group has always represented a great hunter or warrior. Its present title came into Greek astronomy from the Euphrates and originally signified the light of heaven.

Fig Sunday.

Palm Sunday is known in England as Fig Sunday because in many districts figs are freely eaten on that day. The custom is common in the villages of Bedford, Bucks, Hertford and Northampton and is found in some parts of north Wales. As Palm Sunday approaches the shop windows of Dunstable are filled with figs in readiness for the crowds who go to the top of Dunstable downs to regale themselves on that day. At Kempton, in Hertfordshire, to "keep wursel" is to feast on figs or fig puddings with your friends on Palm Sunday. Fig Sunday is probably connected with the story of the barren fig tree, which forms part of one of the lessons for the day.—London Mail.

WHY TRAVEL ABROAD?

An American Should Give His First Study to His Home Land.

When Payne wrote "There's No Place Like Home," he gave poetic expression to the love he bore toward the ingle nook more precious than "temples or palaces." What flowers of rhetoric could approach in power of assertion these five little monosyllabic words, "There's No Place Like Home"—to gainsay which were impossible!

It is the great privilege of Americans to be able without hyperbole to apply them to travel, for what is there in any part of the habitable globe more fraught with interest, instruction, education, refreshment of mind and body and uplifting of soul than nature has provided, with hand so lavish, for the delectation of those having the good fortune to dwell in this goodly land?

Would he see a Riviera? We have several on the shores of the azure waters both of the gulf and the Pacific, far distancing that laved by the Mediterranean.

Does he pine for snow capped mountains? Let him repair to the plains whence Pike's Peak, Mount Logan and our other great elevations rear their hoary summits into cloudland.

Would he witness a majestic cataract? There is but one without a rival, the imperial Niagara—in the chain of our great lakes, most turbulent of links.

Neither Nile, Niger nor Ganges, great rivers though they are, are comparable to our own Mississippi, well named "The Father of Waters." Our peerless Hudson excels in picturesque effects the vaunted Rhine.

What of the beauties of the Golden Gate, on whose shores sits enthroned queenly San Francisco, pronounced peerless among cities by a much traveled European prince of imperial blood?

Where is there, even in miniature, anything to vie with that earthly paradise, the valley of the Yosemite; what to compare with the deep and rugged gorge through which passes to the sea the impetuous Colorado river?

The Mammoth Cave of Kentucky, one of the world's wonders, is as yet but partially explored.

Why, then, travel abroad, while all these and vastly more than can be enumerated remain unseen at home?

"Are not Abana and Pharpar, rivers of Damascus, better than all the waters of Israel?" said Naaman the Syrian of old when ordered by the prophet to betake himself to the Jordan for healing. Who can help admiring his pride of country and robust patriotism? Most worthy are they of emulation.

Be it for health or recreation, there is no grander travel field than that we have at home.—Travel.

The Rainy Day.

A well known artist recently received a letter from a chap who has regularly made it a practice to borrow money of him. In this letter the chap who is always in financial difficulties surprised his correspondent by saying:

"This time I have decided to reverse the usual order of things, and, instead of borrowing from you, I inclose herewith $50, which I am going to ask that you will lay aside for me for a rainy day."

But the artist couldn't find any remittance in the letter. He searched for it on the floor, under the table. In fact, everywhere he thought he might have dropped it. Then quite accidentally he turned over the sheet on which the letter was written and discovered this postscript:

"I've just looked out of the window and find it's raining like the very deuce!"—Collier's.

Tallyho!

A very early equivalent of similar sound and purpose to the tallyho with which a huntsman now cheers on his hounds appears in a quaint old song printed in 1730 called "The Death of Reynard, the Fox," by Sir William Young:

> He quickly found the cover
> Too hot for him to stay,
> And soon Ned Callet spied him
> Stealing across the way.
>
> "Tolle aux!" then Callet cried
> And gave a gibbet shrill.
> He tossed his brush as who should say,
> "Come, kiss me if you will!"

Some, however, derive the cry when a fox breaks cover from "taillis hors," the French for "out of the coppice."—London Globe.

Two Ways to Get Strong.

There are two ways to get strong, the active and the passive. To sum it up with one brief concrete illustration, the active treatment would comprise such vigorous exercise of all the muscles of the body in the fresh, rejuvenating air and under the bright and healing sun as one might obtain in the railroad section gang. By this method you are able to relish and digest anything short of shoe pegs.

The passive method goes at it the other way about. Instead of exercising that one may eat, one eats that one may exercise. A diet is prescribed which is almost pure nutriment to begin with and has been so completely predigested that all one has to do is to swallow it down and the food is turned directly into power. By this method, if the billboards are to be believed, aged gentlemen become so frisky that they jump over eight foot fences just to work off their superfluous energy.—Eugene Wood in Everybody's.

Compensation.

Artist—I've just finished old Cashley's portrait, but I haven't done him justice. Friend—Haven't you? Artist—No; he's paying me handsomely for not doing it.—New York Press.

Old men's eyes are like old men's memories—they are strongest for things a long way off.—Eliot.

Washington, May 11.—Frank P. Sargent, commissioner general of immigration, has returned from New Orleans, where he went to be present at the landing of a body of Italian immigrants.

The vessel brought 766 Italians from Palermo. All but about 20 were permitted to land. Those refused were afflicted with disease or did not meet the requirements of the law in some other particulars. The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebannon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." Sold by J. W. McCollum & Co.

Kind Neighbors.

When Miss Jenkins, after spending fifty-six years in the city of her birth, decided to buy a small farm in the country she determined to miss none of the delights of farming life.

"I'm going to have a steady horse and two cows and some hens," she announced to her brother, to whom she proudly displayed her new property. "The Adams boy from the next house will help me about everything. He'll drive the cows and milk and teach me how to harness, and of course I shall feed the hens and the little pig."

"The little pig!" echoed her brother. "Do you propose to keep a pig? And where, I should like to know?"

"There's room for a small pigpen back of the barn, away from the road and everything," said Miss Jenkins calmly. "Mr. Adams has some cunning little pigs, and that is what I wish. And I asked the Adams boy if he thought when the pig had outgrown the pen I could find some one to take him and give me another little one in exchange, and he seemed sure I could. You've no idea, brother, how obliging the people are here in the country."

Oliver Wendell Holmes.

Mrs. Rebecca Harding Davis writes of Dr. Oliver Wendell Holmes: "Physically he was a very small man, holding himself stiffly erect—his face insignificant as his figure, except for a long obstinate upper lip Cleft to me,' he said one day, 'by some ill conditioned great-grandmother'), and eyes full of a wonderful fire and sympathy. No one on whom Dr. Holmes had once looked with interest ever forgot the look—or him. He attracted all kinds of people as a brilliant excitable child would attract them. But nobody, I suspect, ever succeeded in being familiar with him. I remember one evening that he quoted one of his poems, and I was forced stupidly to acknowledge that I did not know it. He fairly jumped to the bookcase, took out the volume and read the verses, standing in the middle of the room, his voice trembling, his whole body thrilling with their meaning. 'There,' he cried at the end, his eyes flashing, 'could anybody have said that better? Ah-h!' with a long indrawn breath of delight as he put the book back."

Growing Aches and Pains.

Mrs. Josie Sumner, Bremond, Tex., writes, April 15, 1902: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c, 50c and $1.00. Sold by W. M. Johnson, Gainesville, Fla., and J. C. Bishop, Alachua, Fla.

MAJESTIC SCENERY.

CURIOUS ROCK FORMATIONS ON THE COLUMBIA RIVER.

The Pillars of Hercules, Two Picturesque Basaltic Columns, Rise From the Oregon Side of the Stream. Towering Mountain Peaks.

The person who gave the name Pillars of Hercules to two picturesque basaltic columns rising from the edge of the Columbia river, in the Cascade range, on the Oregon side of the river, chose a name that was peculiarly appropriate. One of the interesting nuts which the geologists in this country have had to crack has been when and how the majestic Columbia burst through the basaltic Cascade range and found its way to the foaming margin of the Northern Pacific ocean. Who knows if the mighty Hercules—who, according to the ancient Greeks, when returning from the western kingdom of Geryon tore asunder the European and African continents in order that the waters of the Atlantic and the Mediterranean might mingle—did not go beyond Erythia, Geryon's island kingdom, and perform a like service for the Columbia river? It certainly would have been a feat worthy of his prowess. The Columbia river, after pursuing its placid way across the arid wastes of land on the eastern side of the Cascade range for nearly 200 miles, approaches the stately row of mountain peaks and pushes through between the towering peaks, Mounts Hood and Adams. After descending in a boiling cascade, from which it is said that the range of peaks derives its name, the Columbia, or, as it has often been called, the Oregon, rolls between ever widening banks to the white bulwark erected by the turbulent sea across its mouth.

One with a good strong arm could throw a stone across the river at the point where it enters the portals of the mountains. Literally the river has turned itself on edge in order to squeeze through. Some distance below this point the river pours over a succession of rugged ledges; then it smilingly passes on its way to the sea. The scenery in this cut through the mountains is thought by some to rival in sublimity that to be found anywhere in the world. Pinnacles of volcanic rock tower toward the heavens. On them have lodged seeds carried thither by the wind or birds. From these seeds trees have germinated. These cling to the rocks with a remarkable tenacity, and some of them, one would think, have a precarious living. On the very summit of one of these Pillars of Hercules a single representative of the evergreen trees which abound on the western slope of the Cascades elevates its foliage with all the impudent audacity and farcical diminutiveness of a clown's stovepipe hat. There it stands as securely fastened and its foliage as rakishly inclined as the hat on the clown's brow. What depth of soil it has in which to plant its roots doubtless not many know, for the ascent of the column has probably been accomplished by few. It is said that in the early days of commerce on the Columbia, when sailing ships plowed their way up the stream into the heart of the country, the yardarms would often become entangled in the branches of the trees which overhung the water. To the sailors after their long sojourn at sea it was like entering paradise. Beautiful waterfalls add to the charm of the scene. They come pouring as if from the sky over precipices 800 feet high and, hidden in mist, plunge into the serene bosom of the great river.

There are a number of other striking formations of basaltic columns besides the Pillars of Hercules. There are battlemented castles, rounded domes and a thousand rocks of other fantastic shapes. One group of pinnacles, down which numerous small streams descend, is called Cape Horn. Dominating the scene everywhere through this region are the two extinct volcanoes, snow-capped warders of the pass, Mount Adams on the north and Mount Hood on the south.

The Indians have a legend as to the origin of the obstructions to navigation which form the cascades. They say that the two earth giants, the mountains, jealous of each other's power, once quarreled furiously. They belched forth fire and smoke and hurled great stones at each other. Some of these stones passed across the river, while many others fell into the stream. In the fiery conflict a roof of rock which spanned the river was broken into fragments. The lodging of all these fragments and stones in the stream created the cascades.

The white man has several theories. One is that the ledge of solid rock over which the current sweeps was deposited by a great rockslide down the sides of the gorge. These mountain sides are wildernesses of broken crags extending to the summits, 3,000 feet high. The ledge is crowned with large bowlders so great that the massy body of water cannot move them.—New York Tribune.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at all drug stores; price 50c.

AN OVERDRAFT.

The Reason For a Peculiar Request Received by a Bank.

"We often receive peculiar requests for overdrafts," said a banker the other day. "A client whose standing account had never exceeded $1,000 requested us to grant him an overdraft of $4,000, stating that he was not able to offer any explanation at the present, but assured us that at no time would the bank be in any danger of losing, as the overdraft would not be real.

"After some hesitancy we consented, but stipulated certain conditions and reserved the privilege of refusing if these conditions were not followed.

"Shortly after his departure a well dressed gentleman came in and handed to our paying teller a check for $5,000 bearing the signature of our client and with it a letter requesting us to honor the check with cash. This letter was one of the conditions we imposed for our safety. Still feeling that we were taking a chance, the money was passed out to him. After holding the currency a moment in his hands he returned it, with a request for the check, which he destroyed before us.

"On the following day our client thanked us for our courtesy and waived the overdraft privilege, saying that he had no further use for it. He had with him a check for $5,000, which he deposited. This he had won from his friend on a bet. He had bet that he could negotiate an overdraft for that amount without first explaining that it was a bet and the nature of it, and his friend wagered that no bank would trust him for that amount."—Kansas City Star.

A Creeping Death.

Blood poison creeps up towards the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c at all drug stores.

Just For Toothache.

The blade of a digging hoe was supported horizontally on two bricks and a fire kindled on the ground beneath it. On the middle of the hoe was put a small heap of the seeds of a red fruited variety of eggplant, and over this was inverted the half of a coconut shell having a hole in the top. A piece of bamboo was stuck on to the shell over the hole by a lump of clay. As vapor issued from the bamboo tube the patient inhaled this by placing his lips to the top. Then he spat into a bucket of water, and then again inhaled the vapor. After a quarter hour's treatment the patient and a friend said they could see the "toothache worm" in the water.

And here's a modern Chinese recipe for "painless extraction:"

Cook well the bones of a rat, pulverize and apply to tooth. If it is foreordained that the tooth is to come out this will bring it; if not, it will become more firmly fixed than ever.—Sumatra Straits Budget.

His Enviable Estate.

"When I come into my landed estate I'll bet nobody will put me out," said a philosopher after listening to a tale of woe by a friend who had recently lost his place in the country through the foreclosure of a mortgage.

"Why, I didn't know you owned any real estate."

"I don't now, but I am very positive of having some later on. It will be a very snug retreat, too—absolutely private, although in a populous neighborhood. There will be several other advantages too. It will be free from taxes, and I'll be exempt from jury duty."

"Isn't that fine! I congratulate you. Wish I could inherit something like that. Where is your place?"

"The grave."

The other man said nothing further about the injustice of foreclosing mortgages.—New York Herald.

Sixth Sense In Birds.

In the animal kingdom the birds seem to be really the class most highly favored by nature. Though they are not placed near the summit of the line of evolution, their ability to fly marks them off as having some advantages over nearly all the mammalia. Their mysterious power of changing their polarity or weight in order to dive in water or soar in air has been often discussed, and the almost incredible velocity of their motion when migrating, sometimes amounting to four miles a minute for vast distances, has no parallel among other animals. In addition, experiments with carrier pigeons at night demonstrated beyond doubt that these birds at least possess a highly developed sense of direction.—New Century Path.

PHIFER BROS.,

Phifers' Corner, Gainesville, Fla.

C. C. Strickland of Hague, one of the most successful planters in that section, was trading in the city yesterday. Mr. Strickland states that the crops are badly in need of rain.

W. L. Hill of the Mutual Life Insurance Company of New York has returned from a business trip to points in South Florida. He reports that section in prosperous condition.

Among the visitors to this city yesterday were Justice L. J. Knight and J. T. Stokes of LaCrosse. These gentlemen state that the LaCrosse section was visited by a fine rain Wednesday afternoon which was badly needed and which will prove of incalculable good to the growing crops, which have been suffering for some time.

Rev. S. B. Rogers of the First Baptist Church departed yesterday for Kansas City, where he will attend the annual convention of the Southern Baptist Church. After this convention he will proceed to St. Louis, where he will attend the anniversary of the Northern Baptists. He expects to be absent about two weeks.

After a brief but pleasant visit to old friends in this city, Col. and Mrs. John E. Lambeth have returned to their home in Atlanta, Ga. They resided here for many years, Col. Lambeth having been engaged in business. While they are nicely situated in their Georgia home, at the same time they still have a "weakness" for Gainesville, and were delighted at the opportunity to be here again if only for a short time.

Profs. Tom F. McBeath and George M. Lynch of East Florida Seminary have returned from Tallahassee, where they have been in attendance upon the convention of the county superintendents of public instruction and school officers. During the convention Prof. McBeath made an interesting address, which it is needless to add was enjoyed. The gentlemen report a fine meeting, the majority of the superintendents being in attendance.

Conductor H. M. Peake of the Atlantic Coast Line, who has been for the past few months on the High Springs-Citra run, has been assigned to a run on the Sanford and St. Petersburg division between St. Petersburg and Trilby. He is succeeded by Conductor Claude Davis. Captain Peake made many friends during his stay here who regretted to see him leave, but trust that he will be pleased with his new run.

A. W. Taylor and son Alexander and William Adamson have returned from LaFayette county, where they went several days ago on a surveying tour. Mr. Taylor has a contract to survey a tract of 250,000 acres of fine timber land in LaFayette for the Putnam Lumber Company. He intended to finish the work without delay, but declared the mosquitoes and other insects were so annoying the party could not endure the hardships and were compelled to return. He states that the mosquitoes were so numerous and would swarm to such an extent that it was impossible to keep a lamp lighted, the pests being so thick that they would actually smother the flame. The party expects to return and complete the work in the early fall.

Injured His Hand.

Thursday morning J. L. Shaw of Malphurs, who owns and operates a saw mill, was the victim of an accident which is likely to incapacitate him for some time and cause him a great deal of pain and annoyance. Mr. Shaw had the misfortune to get his right hand mixed up with the circular saw while in motion, with the result that the member was horribly mutilated.

Mr. Shaw came immediately to this city, where a physician dressed the wound. It was discovered that no bones were broken, but it will be some time before the victim can use the mutilated member to advantage.
